

Downloadable Digital Magazines Available for Your Device!

Step by Step Instructions:

1. Visit www.campbellcountylibraries.org

2. Click on the “download magazines from the library” or the Zinio icon as pictured above.

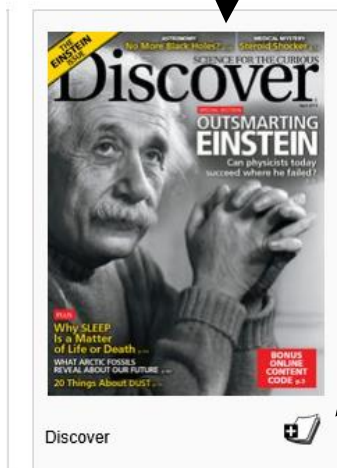

3. Click on “create a new account” or “log in” in the upper right hand corner of the page that opens, as seen below:

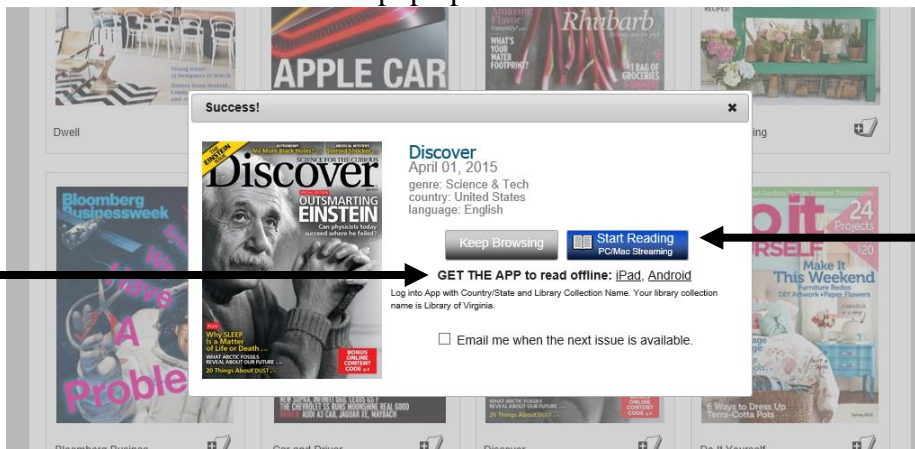

4. If you have already subscribed to Zinio, you can simply log in with your existing credentials. If you are creating a new log in, use the barcode on the back of your library card to get started. You will need to enter an email as a username and create a password. You will then be asked to select your library. **SELECT CAMPBELL COUNTY PUBLIC LIBRARY.**

5. You will then be able to browse the collection as well as use the search bar, as shown above.

6. Click on any title to get more information or click on the + sign to check it out.

7. You will then encounter a pop up screen:

If you want to check out more magazines, click keep browsing until you are ready to start reading your magazine. If you are reading on a computer, simply click “Start Reading!”
If you are reading on a device, click the appropriate operating system, iPad or Android.

8. Follow the on-screen directions of your device. You will be asked to log into the app with your county (Campbell) and state. PLEASE NOTE THAT YOU WILL NOT SEE CAMPBELL LISTED THERE! YOUR COLLECTION NAME IS **LIBRARY OF VIRGINIA**.

9. Once logged in, you will see the magazine covers of those you chose in the Zinio for Libraries site. If not, find the settings—usually indicated by a gear, depending on your device—and choose “Sync Libraries.”

10. Tap the magazine cover you want to read and download as directed (you must be connected to the internet).

PLEASE NOTE: the magazines you checked out will automatically appear available for download in your app library. Magazines remain on your device until you manually delete them, per your device's application requirements.
